

BIOGRAPHY

Mojeed Olamide Bello, currently a doctoral candidate in Electrical and Computer Engineering at Morgan State University's School of Engineering, previously earned his master's degree from the same institution in 2017. Serving as a Teaching Assistant in the School of Engineering, specifically in Electrical and Computer Engineering, Mojeed actively engages in research within the school. His diverse research interests span power generation, resilience, natural disaster mitigation, emergency management, renewable energy, smart grid, micro-grid, optimization, system design, power electronics, blockchain, grid modernization, machine learning, data analysis, and information and cybersecurity. Mojeed, a Trainee Member of ETA-STEM, actively participates in hands-on lab and research activities. Recognized for his contributions, he holds the distinction of being a fellow of the Bill Anderson Fellowship (BAF) and a member of the Historically Black Colleges and Universities (HBCU) Special Interest Group (SIG) within the American Society for Engineering Education (ASEE). Additionally, he is affiliated with the Howard Hampton Morgan Alliance for Graduate Education and the Professoriate (HHMS-AGEP). Mojeed is a proud member of the Institute of Electrical and Electronics Engineers (IEEE).
